

Special issue on the topic "MEMS technologies: theory and practice"

Special issue on the topic "MEMS technologies: theory and practice"

Dear Authors!

The second issue of the journal "Informatics, Telecommunications, Management" is supposed to be a special issue on the topic "MEMS technologies: theory and practice".

The preparation of the materials of the issue is provided by the invited editors: member.- Corresponding Member of the Russian Academy of Sciences, Doctor of Ph. D., Professor D. A. Amerintsev, Candidate of Ph. D., Associate Professor V. V. Loboda.

We invite you to take part in the issue!

Articles received by the editorial board before June 15 are considered.

Editor-in-Chief

A. S. Korotkov
